

# SCHOOL VACCINE EXEMPTION REQUIREMENTS

Jan 2024

**Medical mandates are unethical, unconstitutional, and unnecessary.**

Part of Stand for Health Freedom's mission is to create/support policy that allows individuals to live their lives in a mandate free world. While we do not believe exemptions are apart of a free society, we continue to work to shore up any loopholes, so parents can continue to exercise their right to use them.

	Religious exemptions permitted
	Personal belief exemptions permitted
	Medical exemptions only

SHADED - Minors can be vaccinated without parental consent  
*\*Age of consent and vaccines permitted vary by state*
